Bc. Kostiantyn Zaitsev

Fullstack Developer

About Me

I am a bachelor graduate of FIIT STU, currently studying on Master's. I have gained a solid foundation in programming and networking (CCNA1–3). I have an experience of working in teams on various projects and developing individual academic applications. I approach problem-solving in a structured, systematic way with strong debugging and analytical skills. I am motivated to apply my knowledge in practice and grow in IT.

Kostiantyn Zaitsev

Bratislava, Slovakia, EU

Languages

Ukrainian (Native)

Russian (Native)

English (B1)

Slovak (B2)

Hard Skills

- PostgreSQL
- C / C++ / C#
- React
- TypeScript
- Svelte
- HTML / CSS
- Docker
- Java
- Assembly
- Github + Git
- Rust
- Networking
- Linux / Bash
- Python
- JavaScript
- Codex
- Electron
- Enterprise architect

Certifications

- CCNA: Introduction to Networks (CCNA1)
- Google AI Essentials

Projects

trinitypeer (Rust/Svelte)

- Created a music streaming application for live audio streaming from a computer or local MP3/WAV files

Automatons Simulator (Elm)

- Bachelor's thesis: Developed a web-based simulator for finite automata, pushdown automata, and Turing machines to support learning and visualization

Switch (C#/Electron)

Router (C#/Electron)

Experience

Back-End Developer

PafuPlex (pre-launch) - Bratislava, Slovakia 1 Jan - May 2025

- Developed backend functionality using NestJS for a social media platform centered around poll-based posts with commenting features. Implemented the data access layer and database communication, optimized backend logic, and designed a recommendation system to improve content personalization. Worked closely with the team to deliver scalable and maintainable backend services.

IT Support & Infrastructure Assistant

Ynet (student organisation) - Bratislava, Slovakia 1 Sep 2025 - Now

- Provided technical support to students living in the dormitory, resolving hardware, software, and network-related issues. Assisted with the installation, configuration, maintenance, and troubleshooting of IT equipment, network devices, and cabling. Helped maintain the organization's IT infrastructure and ensured reliable operation of technical systems.

Education

STU FIIT

- **Master's Degree in Informatics (Ing.)**
  2026 – Present (Expected 2028)
- **Bachelor's Degree in Informatics (Bc.)**
  2022 – 2026
